TO BUILD A BETTER FUTURE, WE ALL HAVE TO ADAPT AND CHANGE - AT ENVIRO-WASTE WE HAVE DONE JUST THAT.

A brand new management team have spent a great deal of time listening to our customers. As a result, we would like to share with you some innovative new products and services, designed specifically to demonstrate our commitment to caring for our customers - to provide better waste solutions for a better future!

THE COMPANY

With over 200 client sites nationwide, more and more clients have recognised the value of working with Enviro-Waste. We provide Waste Consultancy, advice and have even designed bespoke machines for one-off applications for: FTSE 350 companies and managing agents - with contracts covering numerous sites. Our practical and legislative experience over many years of Waste Management is fundamental to a long-term working relationship.

We are extremely proud of our clients and of their commitment to conserve our environment. We believe that we are doing something extremely special together.

FOOD AND RECYCLING SPECIALISTS

Our aim is to help and encourage businesses to reduce their waste and carbon footprint by offering individual and effective solutions for all of their food and recycling needs.

Our services include:

- Waste management
- Commercial recycling
- Carbon reduction
- Food waste recycling
- Supply of recycling equipment -
 - > Compacting equipment
 - > Food waste recycling
 - > Baling equipment
- Sustainability consultancy

SOUND ADVICE

Enviro-Waste does not employ commissioned sales people. You can be confident that any advice you receive from our experts will be right for your company.

FLEXIBLE CONTRACTS

As times change so must the contracts we use to do business.

To this end, we have introduced a completely fresh contract that caters for a fixed initial term (typically 3 or 5 years) which then rolls into an annual agreement.

The contract details exactly what is covered and what is not - clearly, succinctly and unambiguously.

- ✓ Fixed term and annually thereafter
- ✓ Clear and unambiguous wording
- ✓ Flexible - enabling equipment to move between different offices or locations

We also recognise that requirements sometimes change. If this happens, we will always try to find an alternative solution or piece of equipment and have a flexible approach to changing equipment for new contracts.

GROUP CONTRACTS

Enviro-Waste works with a number of Property Management groups. The assets they manage include buildings, shopping centres, hotels and more.

To meet their diverse needs we have developed a flexible rental contract that enables individual locations not to be tied to specific pieces of equipment, whilst allowing contracted equipment to be moved to other locations within the group.

We have also focused on decreasing the number of invoices we send, thereby reducing the necessity for purchase orders and ad-hoc invoices, which can be difficult to budget for.

- ✓ Uniform pricing for groups
- ✓ Monthly or annual contracts for consumables, servicing, 24-hour response breakdowns and all equipment is available on rental
- ✓ Reducing the amount of invoices and therefore time
- ✓ Less onerous contracts with 12-monthly rollover after initial fixed term
- ✓ Equipment can be branded in your group livery
- ✓ Includes all training, Health and Safety and legal compliance
- ✓ Training and certification for all machine operatives
- ✓ Waste management consultancy and advice

24 HOUR EMERGENCY BREAKDOWN

We have introduced our most comprehensive service plan yet, tailor-made to help you budget easily for servicing and breakdown costs - whilst making ad-hoc purchase orders and hidden expenses all but a thing of the past.

We are now able to provide:

- ✓ A 24-hour callout plan - no travel costs and the price is fixed
- ✓ Attendance to breakdowns within 24 hours, or the callout is free (fee includes 90 minutes maintenance on site)
- ✓ Dedicated phone line for 24-hour support
- ✓ Dedicated email address for 24-support
- ✓ Pay monthly - no hidden expenditure

TRAINING

Enviro-Waste provides a full training package to ensure that all staff using our equipment are properly trained and have the necessary certification to cover them for its safe operation.

ROUTINE EQUIPMENT SERVICING

We have introduced three simple service plans to cater for servicing of all types of waste equipment. Once again, having listened to our customers, the focus is on fixed pricing - ensuring there are no ad-hoc invoices or purchase orders to be raised.

MONTHLY

Monthly contract, fixed price servicing (paid monthly or quarterly), fixed for the duration of the rental contract.

ANNUALLY

Paid annually in advance, you will save 10% and it will be quoted and paid for annually.

PAY AS YOU GO

Pay as you go. No servicing is included with this package, although you can arrange this at any time.

HEALTH & SAFETY

Health & Safety is becoming an integral part of business. Working with hydraulic and heavy equipment and waste materials requires proven and tested processes. Enviro-Waste have retained the services of Assurity Consulting to ensure that our Health & Safety packages dovetail easily into our clients' systems and legal requirements.

We provide a full certification process, equipment signage, telephone support/advice and legal compliance on tap - ensuring that your personnel and equipment are fully certificated and that all aspects of Health and Safety are fully covered.

APPROVED CONTRACTOR SCHEME

In the event that we use contractors, all are thoroughly trained in the use of our equipment and fully understand and abide by our core values and ethos. We are the only company to provide a 24-hour fixed callout fee that includes 90 minutes on site. We endeavour to get most repairs fully operational within that 90 minutes and therefore avoid additional unplanned expenditure.

WASTE MANAGEMENT PROGRAM (WMP)

The cost of waste management is increasing rapidly. At Enviro-Waste we have invested a significant amount of time and money looking at how waste carriers charge clients for collections and operate their services. The result is that we are able to provide a highly efficient solution for reducing ongoing costs by effective training and management of your waste. This is called the Enviro-Waste Waste Management Program.

We provide a tailor-made solution utilising 'best practice' and independence by not being affiliated with any specific carrier. Our interest is your waste and maintaining the lowest cost for the best possible solution. There are no 'smoke and mirrors'. It is however a thorough understanding of how waste, contamination and machinery enables costs to be managed more easily and from working with hundreds of shopping centres, buildings and schools that enables the right solution to be implemented.

THE GREEN INITIATIVE[©]

Enviro-Waste eu Ltd has now completed the acquisition of The Green Initiative[©] and is proud to announce that we will be offering this service free of charge to all our customers who rent equipment from Enviro-Waste eu Ltd.

The Green Initiative[©] is an International accreditation scheme that recognises and rewards companies for reducing their environmental impact. Not only does it give you all the branding, tools and ideas to become a more sustainable business, it also provides incredibly cost-effective marketing tools to promote your company's green credentials to the public.

As a member of The Green Initiative[©] you are licensed to display The Green Initiative[©] 'seal' throughout your operation - on your website, company vehicles, signage, on windows and doors etc, advertisements, sales literature and indeed on all media where you communicate with the public.

CONSUMABLES

Enviro-Waste has developed a simple system whereby we manage your stock for you at an agreed fixed annual price, invoiced quarterly with your normal equipment rental. We manage all your consumables, ensuring you never run out – and it does not cost you a penny extra.

WHAT IS INCLUDED?

Free delivery for starters!

We offer a wide range of consumables that work with our waste recycling equipment all delivered to your premises without charge:

- Baler wire
- Mini baler banding strap
- Enzymes for Waste to Water machine
- Food caddies
- Food bags
- Kenbay compactor sacks
- Bergmann compactor sacks
- Bins - all sizes

No more Ad-Hoc Purchase Orders!

All services provided by Enviro-Waste combine to being a cost-effective, flexible and sustainable strategy to reduce operational costs and increase your environmental sustainability.
